About Me

I've been interested in engineering since I was young. I watched TopGear and fell in love with cars, later with broader topics. I moved to England to study and become an engineer.

I would describe myself as dedicated to grow and develop, a bit of a perfectionist, ambitious and hardworking.

My goal is to become a knowledgeable and successful engineer.

Previous Work Experience

- **Readman Fabrications Ltd** - Metal Fabricator - Feb 2019-Present

I got this job through my college while doing a L2 Engineering course. We did bigger projects like modifying containers, mozaic floors, quarry machinery rebuilds/maintenance etc.

My employer's name is Graham Readman and his phone number is 07860 777729 if a reference is wanted.

- **Stuart Delivery Ltd** - Delivery Driver - Nov 2020-Present

Delivered food on my bicycle

- **Uber Eats UK Ltd** - Delivery Driver - Nov 2020-Present

Delivered food on my bicycle

- **Rukisu Teja** (Latvia) - Tea and Herb Collector - June 2018-July 2018

Worked in a field collecting teas and berries.
